Subject: Would like to speak before your commission

Dear Mr. Koteck,

I understand that it may be possible to volunteer to speak before your commission. A number of my associates suggested that I find out if this is so. What I would like to discuss are the key findings of a two year study funded by both conservative and liberal foundations on how to assess the risks and costs of the possible expansion of nuclear power.

The study's key conclusions can be found at http://www.npolicy.org/files/20100602-Nuclear_Power_Carbon.pdf. I have presented this report's key findings in testimony to the House. I would be honored if I could give a similar brief presentation to your distinguished commission.

Sincerely,

Henry Sokolski
